Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended based on Amendment filed on 01/17/2006 to correct some informalities as listed follows:

Claim 1, line 2, after "first" insert **—functional block—**.

Claim 4, line 3, before "steps" delete **—the—**.

Claim 11, line 2, after "first" insert **—functional block—**.

Reasons for Allowance

Claims 1 – 8 and 10 – 20 are allowed over the prior art of record. An examiner's statement of reasons for allowance is given in the following:

Claims 1 – 8 and 10 – 20 are allowed because the prior art does not teach or fairly suggest the following subject matter:

- A method for *debugging a system-on-a chip (SOC) comprising system components to include at least a first functional block and a second functional block, said first functional block being controlled by a first block clock and a first clock control unit and said second functional block being controlled by a second block clock and a second clock control unit*, the method comprising step of: *in response to recognizing occurrence of a first specific event occurring on said first functional block, providing a debug trigger signal to both said first and second clock control units to halt both said first and second block clocks* in combination with other limitations recited in independent **Claim 1**;
- An apparatus for *debugging a system-on-a chip (SOC) comprising system components to include at least a first functional block and a second functional block, said first functional block being controlled by a first block clock and a first clock control unit and said second functional block being controlled by a second block clock and a second clock control unit*, the apparatus comprising: *in response to recognizing occurrence of a first specific event occurring on*

Art Unit: 2825

said first functional block, a (second) controller provides a debug trigger signal to both said first and second clock control units to a (third) controller that halts both said first and second block clocks in combination with other limitations recited in independent **Claim 11**.

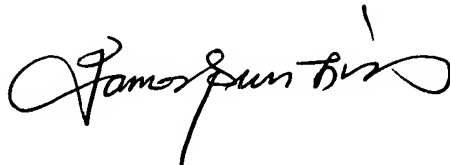

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
